

ALEXANDRU-ANDREI CARMICI

FULL-STACK DEVELOPER

PERSONAL PROFILE

As a Full-Stack Developer specializing in JavaScript/TypeScript, I leverage my skills, passion, and extensive experience to deliver exceptional software solutions that drive impact and innovation.

WORK EXPERIENCE

Mobile Application Developer

List APP SRL | January 2024 - present

- Collaborated on a mobile app for real estate, enhancing speed for 2K+ active users.
- Required skills: React Native, Firebase, Firebase Functions, Stripe SDK, Google Cloud

CEO & Full-Stack Developer

Dacosoft Solution (Startup) | March 2022 - present

- Implemented advanced AI virtual assistants for customer service, creating transformative software solutions. Partnered with clients to deliver tailored, high-impact strategies.

Front-end Developer

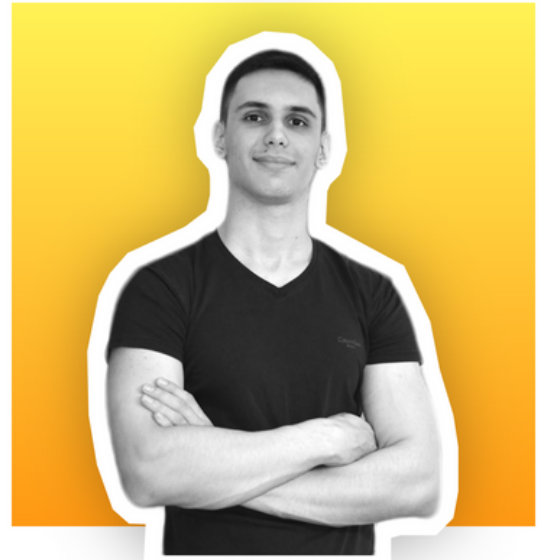

LENOVO GLOBAL TECHNOLOGY | July 2022 - September 2022

- Developed front-end code in AngularJS for an internal web application, enhancing customer support and UX for the HX team. Conducted robust testing with Cypress.

Full-stack Developer

GDM WEBMEDIA | November 2021 - March 2022

- Successfully managed complex projects from inception to completion. Collaborated with team members to enhance existing applications, leveraging ReactJS, NextJS, NodeJS, TailwindCSS, and Strapi. Implemented automated testing with Cypress for real-world scenarios.
